RONNIA, 10/12pt

Ronnia was initially conceived as a single font for private stationary, but then developed into a larger family with a focus on editorial use that, as of today, has **ten members** and keeps growing.

Ronnia features about 800 characters per weight, including SMALL CAPS, fractions, old style and lining numbers, scientific superior/inferior figures, and a set of symbols and arrows. It supports over 40 languages that use the Latin extended alphabet and it was preferred for editorial use by some industry leaders, such as S{o}TA, Palmer Watson Ltd. and The Irish Times.

One of the most remarkable characteristic of this humanistic sans serif is its versatility. *Ronnia's* personality performs admirably in headlines, but is diffident enough for continuous text and small text alike. The **heavier weights** deliver very cohesive shapes, and they have been successfully used for branding and newspaper headlines. Its ten styles grant the designer a broad range of coherent color and texture variations in text blocks, necessary tools to solve complex information and editorial design problems. *Ronnia* has been mainly engineered for newspaper and magazine applications manifested in its properties: economic in use, highly legible, and approaching the reader with some friendliness and charm.

RONNIA, 11.5/13pt

Veronika Burian and José Scaglione, who met at the University of Reading whilst completing their MA's in Type Design, joined forces in 2006 and started the independent type foundry **TypeTogether**. It developed out of our desire to publish high quality typefaces and to collaborate on new type projects together. Hence the name. We also cooperate intensely with other type designers and thus create a diverse and interesting platform.

Our main interest is in finding innovative and stylish solutions to old problems for the professional market of **text typefaces** with a focus on editorial use. This is where we see the greatest challenges, creating typefaces that perform well in continuous reading, but have enough personality to show.

The advantage of being a small but highly specialized company is that we are able to work closely with our clients to accomplish their goals and to respond quickly to their requirements. *Custom modifications* and specially *tailored typefaces* can serve as vital elements of a company's corporate identity communicating a unique feel. At **TypeTogether** we make sure custom typeface projects are developed on solid foundations, based on the client's brief, targeted research and close collaboration with all the involved parties. We also aim for excellent technical performance using the latest font software, creating cross-platform **Opentype** fonts with extended character sets that offer broad language support and all kinds of typographic refinements, such as small caps, ligatures and several sets of numerals.

The quality of our work has been already recognized in several international competitions, including TDC and ED-Awards.

esnúš

Ronnia covers over 40 languages that use the Latin alphabet

CZECH

Národní divadlo začalo s vydáváním CD v roce 2002, po nástupu nového ředitele Daniela Dvořáka, který do funkce šéfa opery přizval svého dřívějšího kolegu ze Státní opery Praha Jiřího Nekvasila. První vydání operou byl Mozartův *Don Giovanni*, vyšly i živé nahrávky Zprávy pro akademii Jana Klusáka, Smolkovo Nagano a další. Zatím poslední je komplet s nahrávkou mimořádného provedení Prstenu Nibelungova od Richarda Wagnera, které vzbudilo velkou pozornost na scéně před 2 lety. "CD slouží jako dokumentace, propagace opery Národního divadla, je k dispozici knihovnám..." říká Jiří Nekvasil. V průběhu pěti let se objevovala i díla českých autorů, například Dvořákův Čert a Káča. "V současné době ty nahrávací společnosti, které to kdysi dělaly, jako třeba Supraphon, které nahrávaly a dokumentovaly celou jednu generaci, dnes asi z finančních důvodů opery netočí. Je to idea, která nás napadla už v našem působení ve Státní opeře, že v době, kdy zachytit hlas a umělecký výkon je technicky

POLISH

Posłowie zkomisji edukacji chcą tworzyć przyuniwersyteckie publiczne szkoły dla wyjątkowo zdolnych uczniów. Ale czymś powinna być selekcjonowana, a zdolne dzieci trafiać do elitarnych szkół? – Tonajlepsze rozwiązanie uważa prof. Wiesława Limont, pedagog z Uniwersytetu Mikołaja Kopernika w Toruniu, który tak skojarzył istnieje. *W zwykłych klasach dzieci o ponadprzeciętnych uzdolnieniach osiągają słabe wyniki. Nie rozwijają skrzydeł i zniechęcają się od nauki. Pomysł budzi jednak kontrowersje. Psycholog społeczny prof. Wiesław Łukaszewski: – Dziecko potrzebuje różnorodnych bodźców, nietylko tych intelektualnych. Takie szkoły działały w Związku Radzieckim i okazało się, że był to wielki niewypat. Zwolennicy pomysłu opierają ten zarzut: podobne szkoły funkcjonują w USA i wielu krajach UE. W Polsce dziś jest jedna taka placówka – Gimnazjum Liceum Akademickie. Oblegane od 1998 r. przez uczniów, działa przy UMK w Toruniu. – Znam osiągnięcia*

HUNGARIAN

Klubunk idén is szeretne támogatni két tehetséges magyar zongoraművész a TCU/Cliburn zongoraversenyen való részvételre. 21 országból 89 jelentkező közül Polgar Éva és Fazekas Edi a válgató versenyek után bjutottak a végsö fordulóba, ami itt lesz Fort Worthben. Ungar Tamás teljes ösztöndijat ajánlott föl nekik. A részvételi díj \$1,100 fejenként. Ehhez szeretnénk erőnköz mértén hozzájárulni, amihez nagykelkü támogatásokat kérném. Bövebb felvilágosítás a műveszkröl a Fesztival web oldalan található : www.piano-texas.org. "Young Artists Program" "Information on Performing Artists" Éva és Edit koncertet adnak az érdeklödök számára, amit rövid fogadás követ. Időpont: 2006 Junius 3-án, szombaton délután 4:00 órákor. Helyszíne egy családi ház : Mrs. Chuifun Poon, 6940 Laurel Valley Drive, Fort Worth, TX 76132 (Gated Community). A belépödij: \$20 személyenként. A jegyek csak elővétben vehetők meg, mer a helyszínre csak örözőtt kapun keresztül lehet bejutni, így a neveket előre le
